IDENTIFYING AND TACKLING THE RISKS OF GEN AI SYSTEMS AND APPLICATIONS

OWASP GenAI Security Project

A global community-driven and expert led initiative to create freely available open source guidance and resources for understanding and mitigating security and safety concerns for Generative AI applications and adoption.

Our Initiatives

Top 10 for LLM and GenAI

Key security risks for GenAI and LLM-based applications.

Select and
listen

AI Threat Intelligence and Response

Tracks GenAI misuse by attackers and emerging threat patterns.

AI Security Governance

Best practices & frameworks for responsible GenAI program oversight.

Secure AI Adoption

Frameworks and policies for responsible GenAI program oversight.

Agentic App Security

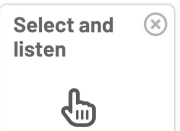

Securing autonomous agents and multi-step AI workflows.

Data Security

Protects training and retrieval data from leaks and tampering.

Red Teaming & Evaluation

Testing GenAI systems through adversarial red teaming methods.

AI Security Solution Landscape

Tools and platforms to address top GenAI security risks.

What the Industry is saying

OWASP's AI Security Solutions Landscape is a landmark guide for security professionals. It outlines key risks and critical controls for securing LLMs and Generative AI applications, while highlighting the innovative. . . .

Gilad Elyashar

Chief Product Officer, Aqua Security

The OWASP Guide to Responding to Deepfakes very clearly outlines threats and guidance deal with some specific. This guide acts as. . .

Henry Patishman

Executive Vice President for Verification Solutions, Regu
